Beaulieu Events Risk Record Please Complete

It is a legal requirement for all employers and self employed people to carry out an assessment of risks that are created as a result of their activities which could effect the health and safety of themselves, their employees and anyone else (such as contractors, members of the public etc.) Traders and exhibitors wishing to attend a Beaulieu Event are required to complete the Health & Safety documentation.

The risk assessment should take account of significant risks that are created **during event set up, the duration of the event and any activities during event break down.**

When completing your assessment remember:

- A hazard is anything that may cause harm, e.g. objects left in walkways, trailing cables, the way your display is arranged.
- The risk is the chance that someone may be harmed by these or any other hazards.

If an accident or incident occurs, the Investigating Authorities will ask to see evidence of a risk assessment, to satisfy themselves that the person(s) responsible have taken all reasonable measures to control these hazards and risks.

You will have to complete a risk assessment that details the significant risks posed by your operations covering set-up, the event and closure (a suggested template can be found in the event booking Instructions). You will need to have this assessment available on your stand throughout the duration of the event.

The checklist below, although not exhaustive, outlines some of the more common hazards. Please indicate those issues that are applicable to your stand.

Identify potential hazards which could harm exhibitors/visitors/Beaulieu Enterprises Limited staff/contractors

Slips / Trips on:	Items protruding into gangways <input type="checkbox"/>	Other Hazards:	Carrying heavy objects <input type="checkbox"/>
