### Surrey Sculpture Society

From small beginnings – a group of fourteen sculptors living in Surrey fifteen years ago – the Society has grown into a major force of over three hundred members spread across the South-East. Encompassing both professionals and talented amateurs, it aims to promote interaction between sculptors, to organise exhibitions and to encourage an appreciation of sculpture.

It holds six major events annually – trails through prestigious gardens where the larger sculptures come into their own and exhibitions at indoor venues, which best display the smaller works. The Society's strength is the great variety of subject matter, materials and styles shown at each: the traditional and contemporary, figurative and abstract: works in stone, bronze, metals, found materials, ceramics, glass, resins, wood. There is invariably something for every visitor to enjoy, as well as a friendly atmosphere where browsers as well as buyers are equally welcome.
